

Occupational Wages

- Of the top five growth occupations in the Lincoln Trail region (1994-2005), two paid a mean wage of more than \$35,000 in 2001. The entry wages are shown in parentheses.
 - Cashiers - \$15,025 (\$11,776)
 - Farmers – According to the Bureau of Labor Statistics (BLS), the mean wage in Farming, Fishing and Forestry Occupations was \$20,650 in 2001.
 - Retail Salespersons - \$15,941 (\$11,709)
 - Managers - \$53,217 (\$22,669)
 - Elementary Teachers - \$37,914 (\$26,910)
- The mean hourly wage for the 204 occupations listed in Lincoln Trail ranged from \$6.15 for Dining Room and Cafeteria Attendants and Bartender Helpers to \$46.58 for Chief Executives.
- This section includes the annual and hourly occupational wages for the 2-digit occupational title as well as 6-digit for fields such as computer and mathematical, engineering, healthcare, and production.

Lincoln Trail - Fourth Quarter 2001 Occupational Wage Estimates

Benefits

- In Lincoln Trail, 86.4% of salaried and 87.0% of hourly full-time workers were offered health insurance. Firms that had 50 or more employees were more likely to offer health insurance than firms that had less than 50 employees.
- Hourly full-time workers in Lincoln Trail were more likely to be offered health insurance than persons statewide, but salaried full-time workers were less likely to be offered health insurance than persons statewide.
- The employers in Lincoln Trail paid about 75% of the health plan cost for both salaried and hourly full-time employees.
- Employers with 50 or more employees were much more likely to offer retirement plans to their full-time staff than those with fewer than 50 employees (Salaried: 95.6% vs. 50.6%; Hourly: 94.0% vs. 47.0%).
- In general, there is less variation in coverage across industries than across regions. Health insurance coverage for hourly workers is 85.1% statewide, and ranges from 57.6% in agriculture, forestry, and fishing to 97.8% in nondurable manufacturing. The same industries have the lowest and highest health insurance coverage rates for salary workers. For retirement plans, statewide coverage is 68.5% for hourly workers and 70.7% for salary workers. Eating and drinking places have the lowest retirement plan coverage rates and social and community organizations (e.g., schools and universities) have the highest coverage rates for both hourly and salary workers. (*Final Report: Kentucky Labor Supply and Demand Surveys*)

Poverty

- In Kentucky, 15.8% of persons are in poverty, 12.9% of persons in Lincoln Trail are in poverty. Poverty for families is slightly less than for persons, 12.7% and 10.4% respectively. For most types of family and work experience, poverty rates are lower in Lincoln Trail than in Kentucky. One notable exception is householders without a spouse present who work full-time.
- Married-couple families are less likely to be in poverty than other families, 5.9% vs. 28.8%, in Lincoln Trail. Approximately one-fifth of families are not comprised of married-couples. Though for other families where the householder worked full-time, the poverty rate is lower, 6.1% for male householders and 10.5% for female householders.
- The first chart on the next page shows the percentage of people below poverty by family type and work experience. It's of no surprise that very few married-couple families with both the householder and spouse working full-time, year-round are in poverty, 0.3% in Kentucky.
- In Lincoln Trail, 11.1% of persons aged 18-64 were in poverty in 1999 (Census 2000). For children, the poverty rate was 16.3% and for those over the age of 65, 14.1% were in poverty.

Labor Market Participation

- The Lincoln Trail labor market participation rate, 63.8% of persons 16+ were in the labor force in 1999, is higher than that of Kentucky (60.9%), but slightly lower than the United States' rate (63.9%)
- Labor market participation ranged from 57.1% in Grayson County to 67.6% in Hardin County.
- Males were more likely to be in the labor force than females. In Lincoln Trail, 71.8% of males participated in the labor force versus 55.9% of females.
- 5.9% of the labor force in Lincoln Trail in 1999 was made in Armed Forces.

Unemployment

- “Kentucky’s seasonally adjusted unemployment rate for April was recorded at 5.7 percent, mirroring the same jobless rate from the previous two months, according to the Department for Employment Services, a Cabinet for Workforce Development agency. In April 2002, the state’s seasonally adjusted unemployment rate also was 5.7 percent. The U.S. seasonally adjusted jobless rate April increased to 6 percent from 5.8 percent in March. (CWD press release, June 6, 2003)”
- In Lincoln Trail, the non-seasonally adjusted unemployment rate was lower in April 2003 than April 2002. This held true for all the counties within Lincoln Trail except Grayson and Larue Counties. At the same time, the non-seasonally adjusted unemployment rate for Kentucky increased slightly from 5.7% to 5.8%.

Underemployment

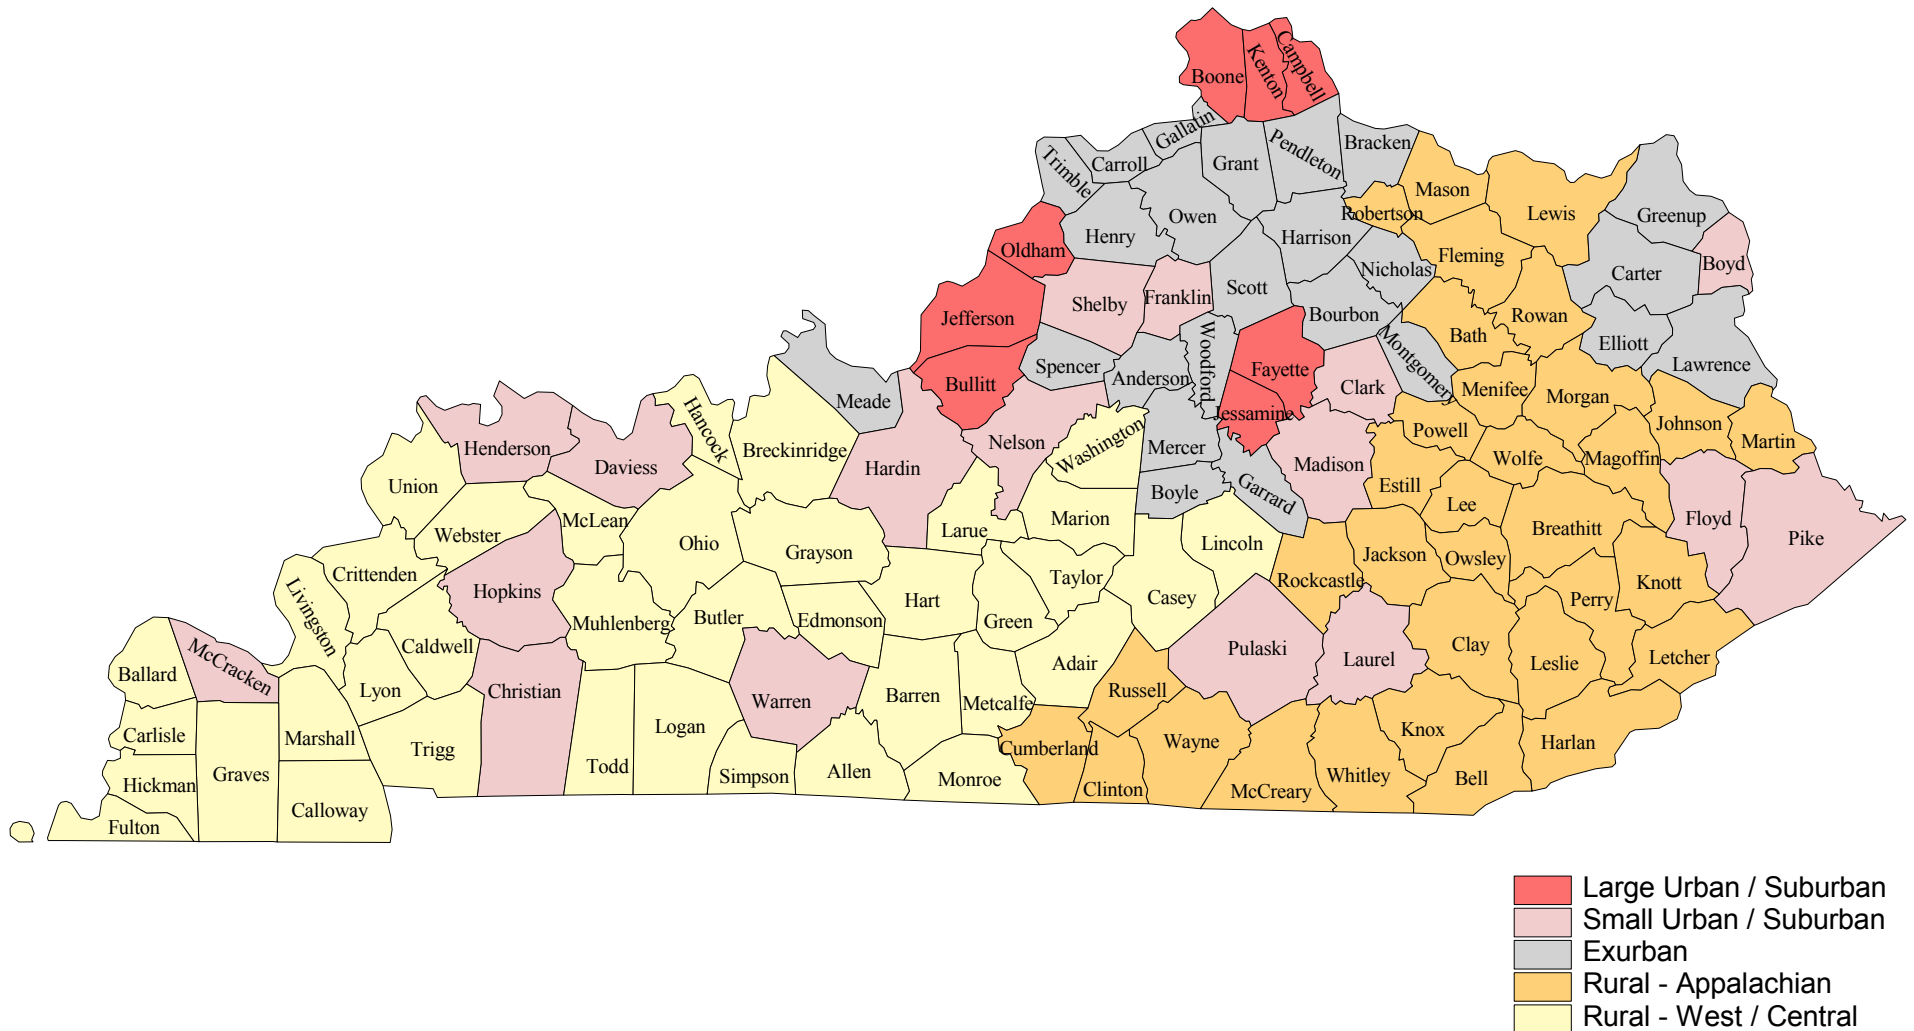

- In 2002, according to the Kentucky Labor Supply and Demand Surveys conducted by the University of Kentucky and the University of Louisville, there were 22,545 underemployed persons in the Lincoln Trail WIA (see chart below). Nineteen percent of the labor force was underemployed, mostly due to persons seeking a better job match, though twenty-four percent was due to persons seeking full-time work.
- Underemployment was higher in the small urban and exurban counties in the Lincoln Trail WIA than in the rural counties (see map next page).

	Underemployed Seeking Full Time Work	Underemployed Seeking a Better Job Match	Total Underemployed	% of Labor Force Underemployed	% of Labor Force Under- or Unemployed
Lincoln Trail	5,356	17,189	22,545	19.1%	24.2%
Breckinridge	198	1,117	1,315	15.6%	21.6%
Grayson	235	1,531	1,766	16.4%	22.1%
Hardin	2,916	7,154	10,070	20.9%	25.9%
Larue	133	835	968	15.5%	20.3%
Marion	252	1,248	1,500	18.2%	24.1%
Meade	451	1,948	2,399	19.1%	25.8%
Nelson	1,033	2,622	3,655	19.6%	23.3%
Washington	138	734	872	17.1%	21.7%
Kentucky	80,882	273,823	354,705	18.4%	24.1%

- In small urban counties around Kentucky, the underemployed were
 - less likely to be married,
 - more likely to be attending school,
 - less likely to have a post-secondary degree,
 - more likely to be non-white,
 - more likely to be working part-time
 - more likely to be in retail, in education, legal and arts occupations, as well as sales and production occupations
 - less likely to be in management, business and financial occupations and health care occupations than those who were employed but not underemployed.

- The underemployed were also younger and were paid about \$13.77 an hour less than those who were employed but not underemployed.
- In exurban counties around Kentucky, the underemployed were
 - less likely to be married,
 - more likely to be attending school,
 - more likely to have some college or an associate or vocational degree,
 - less likely to have a baccalaureate degree or an advanced degree,
 - more likely to be non-white,
 - more likely to have a physical limitation or learning disability,
 - more likely to be in the retail sector,
 - more likely to be in food, cleaning and personal care occupations,
 - less likely to be in management, business, and financial or social and protective service occupations,
 - The underemployed were also younger and were paid \$4.11 an hour less than those who were employed but not underemployed.
- In rural (west and central) counties around Kentucky, the underemployed were
 - less likely to be married,
 - less likely to be attending school,
 - more likely to have some college,
 - less likely to have a baccalaureate degree or an advanced degree,
 - more likely to be non-white,
 - more likely to have a sensory or physical limitation or learning disability,
 - more likely to be in the retail and manufacturing sectors,
 - more likely to be in office and administrative support occupations as well as transportation and materials occupations,
 - less likely to be in management, business, and financial occupations,
 - The underemployed were also slightly younger and were paid \$3.95 an hour less than those who were employed but not underemployed.

Commuting Patterns

- In 2000, 94,125 persons worked in the Lincoln Trail WIA, 8,222 of whom commuted into the region. More persons commuted out of the Lincoln Trail WIA than commuted into the WIA; 23,845 residents worked outside the WIA.
- Hardin County was a net-importer of labor in 2000, bringing in workers from 45 other Kentucky counties, as well as an additional 90 counties across the country. The other counties in the Lincoln Trail WIA exported more labor than they imported. Over 60% of those who commuted out of the WIA worked in Jefferson County.
- In Kentucky, 30.3% of workers commuted outside their county of residence. In the Lincoln Trail WIA, this percentage ranged from 19.6% in Hardin County to 65.7% in Meade County.
- The Table below shows the 1990 and 2000 Kentucky commuting patterns into and out of the bordering states. Notice that there was a net loss of workers to the bordering states in 1990, but a net gain in 2000, due in large part to persons from Ohio commuting into the Northern Kentucky WIA.

Kentucky Commuting Patterns by Bordering States
1990 – 2000

State	1990			2000		
	Work in Kentucky	Work Out-of- State	Net Commuting Gain / Loss	Work in Kentucky	Work Out-of- State	Net Commuting Gain / Loss
